

RefectoCil Cosmetic Brush Soft

5 units

Professional application of tint

RefectoCil Cosmetic brush soft is not only a very elegant tool but also a timesaver. The flat, straight bristle allows simple and precise application of RefectoCil tints to eyelashes and eyebrows.

- Finest detail work possible
- Soft to the skin
- The synthetic bristle has an exceptionally long lifetime
- Brush and bristle can easily be cleaned with water

Tip:

- To tint the lower lashes perfectly, make sure that the eyes of the client are closed and apply the tint first to her lower lashes. Then brush in the colour from above as usual.
- Suited for tinting sparse as well as thick eyebrows because the narrow, fine tip makes working precisely possible.

Target group:

Clients, who request:

- enhanced eyebrows
- a fine lid line
- voluminous lashes
